

UX Design Intern (m/f/d)

Develop concepts, designs for web services and brands.
And gain deep insights into evaluation methods and design processes.

You can expect interesting projects, challenging customers, a close-knit, experienced, and passionate team, a relaxed working atmosphere and varied areas of rich expertise. With us, it's all about *brands becoming an experience*. The best solution for the customer and for constructive, purposeful cooperation.

Your profile

- Strong interest in UX research, prototyping and user interface design
- Strong sense of responsibility and for teamwork
- Feeling for design and intuitive user interfaces
- Highest standards on design quality and aesthetics
- Boldness in facing new challenges like learning new UX/design tools and coding basics

Your stack

- You can work with basic design tools like Adobe Creative Suite and UX design tools (Sketch, Figma, etc.)
- You are reliable and able to handle challenging tasks, also on your own
- You want to build a sustainable partnership and maybe stay in the team after your internship

What we offer

- Interesting and challenging tasks
- Being part of building a brand-new company
- Small, boutique-style team
- High-profile projects from a range of industries
- Flat hierarchies and short lines of information
- Open learning environment and training opportunities
- Pleasant and creative atmosphere
- Free beverages (water, coffee, tea, beer after work)
